Ghise "Ni-Hard" resistenti all' abrasione  
Ghise legate "CroMo" altamente resistenti all' usura  
Ghise "Ni-Resist" resistenti alla corrosione ed al calore

## QUALITY AND ENVIRONMENT POLICY

The Management of **FONDERIA GETTI SPECIALI Colombo Giuseppe di Carlo e Figli S.p.A** believes that the implementation of an Integrated Management System for Quality and Environment will lead to global growth and be a key opportunity to enhance the organization, the processes, the products and services establishing relationships of esteem and mutual trust with its customers, suppliers, employees, and all interested parties.

An "Initial Environmental Analysis" of the activities carried out at the S. Giorgio su Legnano site and the analysis of the corporate context by assessing internal and external factors, interested parts and strategic planning has identified these priority areas of intervention:

- ) Maintaining compliance with all environmental, health and safety laws, rules and regulations in force
- ) Constantly monitoring their most significant environmental effects, exposure of workers to risk factors, use of energy resources and raw materials and the overall impact on the ecosystem
- ) Implementing programs aimed at preventing pollution, optimizing energy consumption, reducing and recycling waste and limiting the major impact on the environment
- ) Developing appropriate process indicators and procedures to evaluate the results associated with them in order to continuously improve
- ) Evaluating new or modified activities in advance to prevent the negative effects on the environment
- ) Evaluating the product - environment interaction in advance for the entire life cycle of the product / service.
